

IOSH WORKING SAFELY

Institution of Occupational Safety and Health (IOSH)

WORKING SAFELY DELIVERS...

Who should go on Working safely?

Working safely is for people at any level, in any sector, needing a grounding in the essentials of health and safety. Everyone at work should have an understanding of why they must 'work safely' – and this course offers exactly that.

What will they get out of it?

What they need to know – and are perhaps reluctant to learn about – in a refreshingly informal way. Working safely isn't supposed to turn delegates into safety experts. It focuses on why health and safety is important, and how individuals can make a real difference to the wellbeing of themselves and others through changing their behavior.

Assessment & Evaluation:

Written & practical tests included in the day's learning.

Certification

Delegates who successfully complete the written and practical assessments at the end of the course are awarded **an IOSH certificate in Managing Safely and certificate in Working Safely** . Please note that the practical assessment must be completed in the workplace and submitted within one weeks of completing the course.
